

Sports Council

Sports council is an initiative run by the Physical Education Department in Setanta to increase student's participation in the organisation of sports/games in the school. The sports council are an amazing asset for the school to have. Students are selected for the programme via an application form. (See Below)

They consist of 15 members from 1st, 2nd, Transition Year and 5th Year. Having a mixed variety in ages on the council allows for the senior members to mentor younger members. The overall aim of the programme is to enhance students understanding of the organisation of sports in schools and to gain an insight into coaching and managing a team.

Over the last number of years, the Sports Council have helped the PE Department in the organisation of 'Get Active Week' and Sports Days. They also assist other departments who are running sporting events in aid of charities (e.g. CSPE Action Projects) or sponsored walks/school walks. They work alongside coaches to help train teams, gather equipment, jerseys, water-bottles.... etc.
